Hi Tom!

Thank you for the kind words. Becca and I are finally back in Boston getting settled. Once again, I cannot thank you enough for the work you've done. The pictures are fabulous and everyone we've shown them to is awe-struck with what you were able to do. Truly a job well done and thank you for capturing one of the most special moments of our lives. If by chance you happen to be in the US, please let me know. If there was some way we could have you photograph other events in our lives, we'd love that.

Best,
Matt

I can't recommend Tom enough! He was very professional from beginning to the end. Our communication via email was excellent and it was clear that Tom has extended experience in wedding proposals. The day of the proposal, Tom scouted the "secret place" and sent me a detailed walking plan and instructions. He was discreet while taking photos of us from all angles. After the big moment, we walked to several places that Tom knew in the centre of London for more photos.

What I really loved was that in the same evening we already had 5 amazing photos so we could share with friends and families. Tom delivered additional photos within a week as we had agreed.

Thanks a ton Tom. You made our special day stay forever in our hearts and we felt you were also part of it!!!

Want to really wow your partner?

As a proposal photographer I have captured many proposals at venues all over London, working with The Proposers.

A proposal planner comes highly recommended for those wanting to go the extra mile to pop the question, and The Proposers are the original and best in the business. Have a look at their website & make an enquiry.
